Education

University of Central Florida — August 2017 – May 2020
BS Computer Science, GPA 3.6 — *Orlando, FL*

- Achievements: 2x Dean's list
- Coursework: Data Structures and Algorithms, Compilers, Discrete Mathematics and Computational Theory, Computer Architecture, Database Systems, Analysis of Computer Communication Networks

Valencia Community College — May 2015 – May 2017
AA Computer Science, GPA 3.93 — *Orlando, FL*

- Achievements: 5x President's list, 1x Dean's list, Member of Phi Theta Kappa Honor Society
- Coursework: C programming, Java Programming, Advanced Java Programming, Differential Equations

Projects

BattleStAR (Won - Best UX Project at Swamphacks 2020)

- Languages and Frameworks: C#, Unity, Vuforia Engine
- AR Game that uses a deck of cards as markers to generate battleships that you can use in 1v1 battles
- Redesigned the AR controls to improve the shooting system's sensitivity to the human hand
- Expanded the app's capacity to handle more AR targets at the same time

AR Soccer Referee Training

- Languages and Frameworks: C#, Unity, AR Foundation, Firebase, DynamoDB
- Trains soccer referees by simulating real-life soccer scenarios and allowing them to make decisions that affect the game
- Assisted in setting up the DynamoDB database before switching to Firebase
- Wrote C# scripts to control the players' movements

Project Stone

- Languages and Frameworks: Python
- Discord bot that has multiple functions
- Parsed through a website using BeautifulSoup library to find if Publix Subs are on sale.
- Utilized various APIs to add more functionalities to the bot

Experience

CentralSquare Technologies — Lake Mary, FL

Service Desk Intern (Jan 2019 – Sep 2020)
Network Support Specialist I (Sep 2020 – Present)

- Provides technical support for internal customers through tickets, phones, or in person
- Pre-image machines for equipment replacement and new hires
- Assist with non-specific tasks to aide IT personnel such as equipment inventory
- Maintain Service desk documentation and knowledge base for internal customers

Skills

Programming Languages C, Java, C#, R, Python, Haskell, F#
Languages Arabic, French, English
Frameworks Unity, Vuforia Engine
Tools MS Office, Eclipse, Visual Studio, GitHub, Git, PowerShell, Bash, gdb
OS Windows, Mac OS, Linux
